

TECHNICAL DATA SHEET

E2SE N162

Heavy Duty Cleaner/Degreaser

GENERAL INFORMATION

E2SE N162 is a blend of nonionic surfactants in a hydrocarbon solvent formulated for use especially in the oil related industries. It has excellent degreasing properties and a pleasant odour. The concentrated product has strong emulsifying effects in contact with water. This enables the oil-fractions to be dispersed in the water-phase.

PRODUCT DESCRIPTION

Concentrated blend of nonionic surfactants in a hydrocarbon solvent.

PHYSICAL PROPERTIES

Appearance	Clear liquid
Density, 20°C	0,805-0,850 g/cm ³
Viscosity, 20°C	< 10 mPa.s
Flash Point	> 62 °C
pH (1% in water)	7,8

APPLICATION

For cleaning purposes, the E2SE N162 is applied by brushing or spraying the greasy and contaminated objects, which are then washed off with water after 5-15 minutes. On contact with water a rapid emulsification of oil and grease will take place due to the action of the E2SE N162.

DELIVERY

Delivery in 1000 Litre containers, 200 Litre drums, 25 or 10 Litre cans.
